INOCULATION

Last year we used large quantities of Inoculation on our Pea and Vetch plantings and the results were excellent. We think you should recommend it on all legume seed plantings. We have both NITRAGIN and DICKINSON'S.

MARKETS

Most grass and field seed markets are high on account of the drought conditions in the central United States. Many Oregon seeds are moving east at high prices and the demand is excellent now. We do not recommend heavy forward buying, but only for your fall trade.
